What our partners are saying

Ing. Ivan Bezák, PhD., General Director and CEO Ingsteel

Our company has been working with JAGA for more than 20 years and we at Ingsteel have been extremely happy with how it has performed. Ingsteel approached JAGA in the beginning mainly with books they had published about civil engineering and construction, which were used by us to help train new hires, mostly recent graduates. In the years together and also through various social events JAGA organized, the relationship between Ingsteel and JAGA has grown stronger and thrived as what had purely been purely professional relationships have turned into friendly ones.

Ing. Peter Markovič, CEO Xella Slovensko, spol. s r. o., and Xella CZ s. r. o.

JAGA is a key media partner whose interests in home living, construction, and architecture jive with Xella's. Through their strong media portfolio and the publishing house's other endeavors, JAGA helps our communication strategy succeed in markets both in Slovakia and the Czech Republic. The long-term collaboration between JAGA and Xella is grounded on reliability, industry experience and a professional approach. I appreciate the quality of JAGA's editorial work, their high reach among both professional and general audiences and the desire to keep moving forward.

Peter Wolf, Managing Director Vaillant Group Slovakia, s.r.o.

The Vaillant Group have been working together with JAGA for so long that we cannot even imagine ever having done business without them. What they do for us is more than just advertising Vaillant in their magazines, designing graphics or writing articles about us. There is something extra and that is their ability to connect with people from the industry and is there that we go to be inspired.

Ing. Tomáš Bábics, Managing Director Terran

Our company has been continuously working together with JAGA since 2006. Terran's cooperation with the publishing house has been a long-term partnership founded on quality work, friendly communication, customer care, reliability, and trust. It always makes us happy when our customers tell us about having seen Terran in JAGA's media and it lets us know that our joint efforts with JAGA have not gone wasted.

Petr Král, CXU Director, CEE Region VELUX

The cooperation between VELUX and JAGA can be summed up relatively subtly as this: "JAGA listens, prepares, performs, evaluates and is constantly improving. I know from my own experience that there are few media partners concerned about their advertising clients. I wish JAGA all the best.

Milan MURCKO, CEO YIT Slovakia

There is woefully little quality journalism in Slovakia – the kind that seeks objective truth and the real causes of events in the construction and real estate markets with no intention to manipulate them. Here, Jaga can be seen as an exception where true professionalism and independence are every day a natural element of what they do.

Miroslav Haraszti, Sales Director Premac, s.r.o.

Over the several years that we have turned to JAGA, access and communication has always remained at a professional level. They respond flexibly and professionally to our requirements and each year talking to each other brings us well laid out media space at an affordable cost in Slovakia's most widely read professional and lifestyle magazines.

Stana Radivojevič, Marketing Manager MAPEI SK, s.r.o

In JAGA, we have found a reliable, long-term partner whose magazines fit different target groups and promote well the quality construction solutions Mapei offers.

Advertising elements are visual, textual, aural, or audiovisual information directly or indirectly promoting the Advertiser's goods or services. All advertising elements are required to comply with the rules set out in the technical specifications.
- The Advertiser shall deliver all graphic, technical, and textual advertisement elements at the Advertiser's own expense no later than three (3) workdays prior to the date when the advertising campaign is scheduled to commence.
- Unless the Operator and the Advertiser agree otherwise beforehand, the Operator shall be entitled to postpone the date when the advertising campaign is scheduled to commence until the contractually agreed number of pageviews or advertisements in the proper format for publication has been fulfilled.
- The Advertiser is responsible for the advertisement's content and declares that none of the advertising elements violate legislation governing unfair competition, copyright and other intellectual property rights, consumer protection, and advertising, as well as other generally binding legislation and the ethical principles of advertising practice issued by the Rada pre Reklamu (Advertising Council), the independent advertisement self-regulatory organization (SRO) in Slovakia. The Advertiser furthermore declares the advertising elements intended for publication as an advertisement, which fulfill the conceptual features thereof, (i) to have been produced by people employed with the Advertiser and that the Advertiser is entitled to exercise the employees' property rights in their behalf; or (ii) to have acquired the right to dispose of the advertising elements by virtue of a contract concluded with either the author or another person authorized to exercise the property rights thereto, whereas either of them, as the case may be, has consented to sublicensing the publication of the advertising elements. Should the Advertiser have acquired the right to dispose of the advertising elements as provided in (ii) above, consent to the use thereof under a contract for the provision of advertising services shall be deemed a sublicense.
- The Advertiser has the right to request the advertising elements to be extensively proofread twice in order to make corrective changes, for example in the text and graphics. Had the Advertiser delivered to the Operator advertising elements already prepared for publication, the Operator shall not be responsible for any advertising errors caused by the use thereof.
- The Advertiser is entitled to full use of the advertising elements created and supplied by the Operator only for the purpose of advertising on the Operator's domains. The Operator shall only be entitled to use the advertising elements for any other means, in particular to disseminate or to make them available to the public, or for public transmission, by virtue of a separate license or sublicense agreed between the Advertiser and the Operator.
- The Operator shall be entitled to charge the Advertiser for the cancellation of an advertising campaign:

- 100% of the price of the advertisement were the campaign cancelled seven (7) days or less prior to the launch thereof, or at any time during it.
- The Operator shall issue invoices with all the requisites of a proper tax document within fifteen (15) days from either the end of the advertising campaign or the end of the calendar month, unless otherwise agreed in the contract for the provision of advertising services.
- Invoices shall be electronically sent to the Advertiser, in PDF format, at the address specified either by the Advertiser or in the contract for the provision of advertising services, in accordance with Section 31-36 of Act 431/2002 on accounting, as amended, and with the invoice meeting all requisites of a proper invoice as defined in Sections 75 and 76 of Act 222/2004 on value added tax, as amended.
- The Advertiser shall be obliged to remit payment to settle any invoices issued by the Operator within fourteen (14) days from the date of issuance. The Operator's bank details shall be stated on the invoice.
- Were the Advertiser to default on the remittance for any invoice, the Operator shall be entitled to charge late interest of 0.05% for each day begun in default and a penalty of 10% p.a. on the outstanding amount, and the Operator shall be simultaneously entitled to not accept an order placed for another advertisement until the payment for the invoice in question has been remitted.

Neither the display of the advertisement exclusively in the time interval within which the advertisement system specified in the contract automatically displays it, nor any fluctuation in portal traffic had the scope of the advertisement stipulated in the contract not been fulfilled, shall be construed as an error in the advertisement.
- The Operator reserves the right to charge the amount discounted beforehand should an invoice with such a discount not have been remitted by the date when payment is due.
